Baba Nanak Sindhi Hindi High School — HSC 2020
73.84 %

Baba Nanak Sindhi Hindi High School — SSC 2018
84.20 %

Projects

Online Job Portal Website
- Online job portal website serves as a platform where job seekers can explore job listings, and employers can post job vacancies. The platforms are developed using HTML, CSS, JavaScript, Bootstrap, PHP, and SQL, ensuring an interactive and user-friendly experience for both job seekers and employers.
- The website utilizes a relational database to manage job listings, user profiles, andapplications efficiently.

Library Management System
- A library management system (LMS) is a platform designed to manage and automate the operations of a library.
- Developed using HTML, CSS, JavaScript, Bootstrap, PHP, and SQL, it functions as a web-based system that can be accessed through a web browser.

Multi-Category News Aggregation Platform
- This is a multi-category news aggregation platform created using technologies such as React.js, the Bootstrap framework, and LSTM deep learning concepts, along with traditional machine learning algorithms.
- The platform aggregates multiple news sources, displaying a comparison between true andfake news.
